

Cedar Associates LLC conducts clinical effectiveness and decision analytical research pertaining to novel and emerging medical technologies. Our clients are health sciences research and development companies in the areas of biotechnology, pharmaceuticals, diagnostics, and devices. We are seeking applicants for the position of Research Analyst to support research and consulting activities.

Responsibilities:

- Searching, retrieving, and abstracting publicly available information from on-line databases (e.g., PubMed, government research sites) concerning epidemiology, cost, and economics of health care
- Preparing reports of findings, illustrating data graphically and translating complex findings into written text
- Project management

Position requirements:

- Recent BS/BA, in which college curriculum included coursework in human biology, statistics, and economics
- Interested in a minimum of 2 to 3 years of work experience (we require at least a 2-year commitment) prior to matriculation into post-graduate studies program (e.g., MPH/MS, PhD, MD, PharmD)
- Strong proficiency in Word, Excel, PowerPoint, Adobe Acrobat and ability to learn other computer programs (e.g., EndNote) as needed
- Strong organizational skills with the ability to complete multiple tasks efficiently
- Results-oriented team player with willingness and motivation to grow professionally in an entrepreneurial environment
- Strong communication skills

What we offer:

- A career in an entrepreneurial firm with substantial potential for professional development
- A dynamic culture with flexible working conditions
- A competitive compensation and benefits package

Compensation:

Pay / benefits are competitively based on industry standards and on experience. Benefits include health care and 401(k).
